He left the room before Item 7 (Presentation on Planning Guidelines) on the Agenda and did not take part in the debate or vote on the item.

A statement was read out from a tree surgeon who had worked on the tree in 2011 which stated that the tree had been in decline since then and had the potential to cause significant damage to the owner's property, the neighbouring property and the public if nothing was done. In his opinion the tree would respond to pollard, and even if it did not it would remain a strong feature in the road and a long-term haven for wildlife. He also stated the only alternative, in his opinion, would be to remove the tree and replant the stump.)
