

Code of Corporate Governance 2021/22

Eastleigh Borough Council - Code of Corporate Governance 2021/22

Review Date: September 2021

INTRODUCTION

Corporate Governance is the term used to describe the system by which Local Authorities direct and control their functions and relate to their communities. Governance is about how the Council ensures it has the right processes and values by which it operates and how they engage with and held accountable to their communities and stakeholders.

Local government organisations are accountable not only for how much they spend, but also for how they use their resources. In addition, they have an overarching responsibility to serve the public interest - adhering to the requirements of legislation and government policies.

It is essential that Councils can demonstrate the appropriateness of their actions and have mechanisms in place to encourage and enforce adherence to ethical values and to respect the rule of law.

We are committed to demonstrating that we have the necessary corporate governance arrangements in place to perform effectively. We follow guidance issued by the Chartered Institute of Public Finance and Accountancy (CIPFA) and the Society of Local Authority Chief Executives (SOLACE) 'Delivering Good Governance in Local Government (2016)'.

The guidance defines the seven core principles, each supported by sub-principles that should underpin the governance framework of a local authority.

- Behaving with integrity, demonstrating strong commitment to ethical values and respecting the rule of law
- Ensuring openness and comprehensive stakeholder engagement
- Defining outcomes in terms of sustainable economic, social and environmental benefits
- Determining the interventions necessary to optimise the achievement of the intended outcomes
- Developing the entity's capacity, including the capability of its leadership and the individuals within it
- Managing risks and performance through robust internal control and strong public financial management
- Implementing good practices in transparency, reporting and audit to deliver effective accountability

BENEFITS OF A CODE OF GOVERNANCE

The documents and arrangements set out in the framework within this code demonstrate how we continually seek to ensure we always remain well governed and seek to achieve our objectives whilst acting in the public interest. We have a Constitution and associated governance documents and arrangements in place. The purpose of this Local Code of Governance is to set out the main principles of good governance that we are committed to and highlighting the key policies and processes that are in place to ensure these principles are followed.

ANNUAL REVIEW AND REPORTING

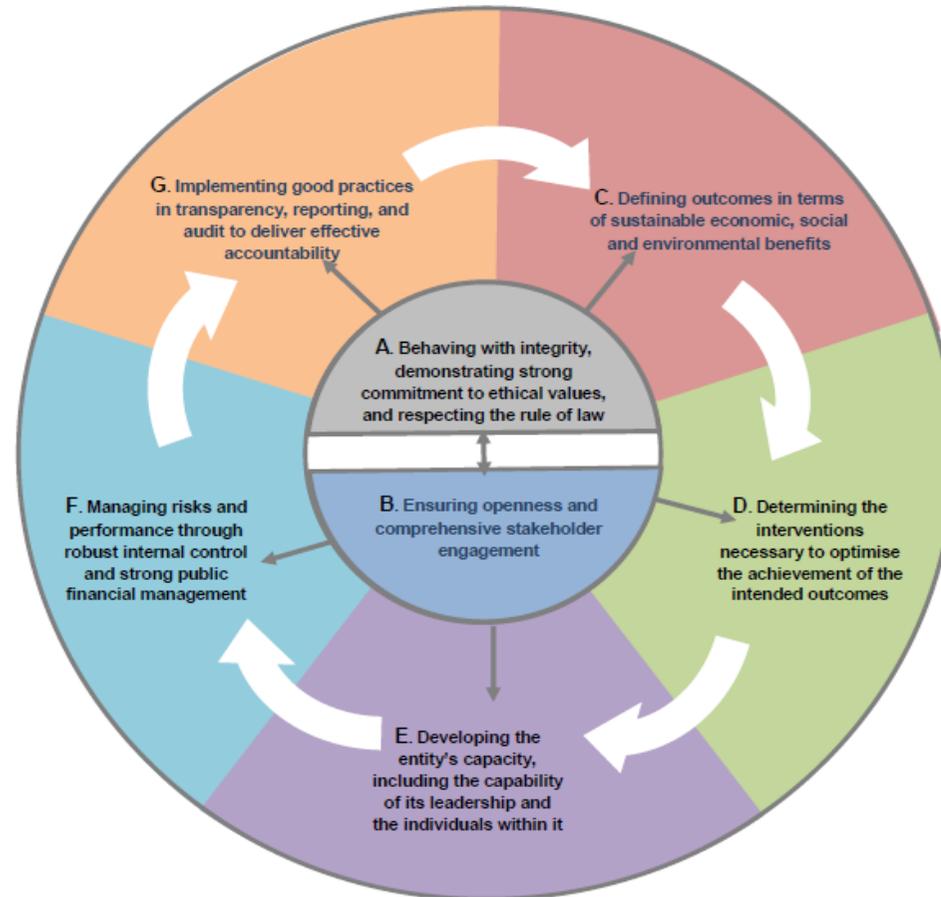

In order to comply with the principles of good governance we must undertake to ensure that our systems and processes are continually monitored and reviewed and are kept up to date.

Each year the Council will carry out a review to provide assurance that governance arrangements are adequate and operating effectively, or to identify action that is planned to ensure effective governance in the future.

The outcome of the review will take the form of an Annual Governance Statement prepared on behalf of the Leader and Chief Executive. It will be submitted to the Audit and Resources for consideration and approval.

The Annual Governance Statement will accompany the Council's Statutory Statement of Accounts, as required by the Accounts and Audit Regulations.

The Council aims to achieve good standards of governance by adhering to the seven core principles below, which form the basis of the Council's Code of Corporate Governance:

The following pages provide a summary of actions and behaviours taken by the Council in relation to each of these seven core principles and associated sub principles.
