Age Concern Eastleigh	We need help to relaunch our services after the pandemic forced us to stop face-to-face service delivery, and because squatters moved into our closed premises, we need to replace equipment and resources that were damaged or stolen. We need to replace our office computer which was destroyed. A grant of £500 will enable us to purchase an office computer to ensure that we maintain consistent support to the older population of Hedge End, West End and Botley.	£500.00	£0.00	As this service benefits all residents across the borough, it was felt that this application should be submitted for the Borough Wide grants instead.
Hedge End Breathe Easy and Friday fitness Group	We would like to introduce Tai chi monthly to the group, as it is excellent for maintaining good balance and helping prevent falls £300 would pay for 6 monthly sessions and we would use subs and fundraising for the rest	£300.00	£150.00	To help with promotion for the set up of new class.

Botley Floral Club	This cost will cover the fee charged by the qualified teacher plus travelling costs and materials needed for the session.	£200.00	£0.00	Does not meet grant criteria, i.e. running costs and the club's account appears to have over £1000 unallocated to cover the costs of the demonstration.
West End Local History Society	We have a very elderly donated computer in museum, and feel that now there is WiFi availability on site, we could offer more help and assistance with visitors queries.	£450.00	£450.00	

Citizens Advice Eastleigh	We are moving to cloud computing (Google Workspace) to make best use of our financial resources, and ensure that we are all linked, no matter where we are working from. Due to financial constraints, our volunteers have been using their own IT equipment to volunteer helping the public at home. We are seeking funding to ensure that all of our team have Chromebooks owned by us, so that we can maintain them at no cost to the volunteers, link up our systems to maximise our effectiveness and troubleshoot from afar. Having a machine owned by us provided to them would ensure that our volunteers feel supported in their role, would make volunteering easier, and ensure that we can make a smooth transition to the cloud.	£490.00	£0.00	As this service benefits all residents across the borough, it was felt that this application should be submitted for the Borough Wide grants instead.
